**MODERATOR
LYSE DOUCET, BBC
(TENTATIVE)**

This public event will set the context for CIGI's annual conference, CIGI '10: Climate of Action, by reviewing where global climate policy stands today, where current trends in the global negotiations are taking us, and what the implications of that path are for the climate and society. Focusing on the need to achieve an equitable and effective global climate deal, the Friday event will pose the challenge for the work of the private sessions over the next two days.

Please RSVP at:
